

Want More from your MLS? GLVAR's Doc Manager is Coming Soon!

- Integrated with MLXchange—no need to learn a new system
- Easily upload Documents directly from your MLS system you use everyday
- Create Client and/or Transaction files with all of the necessary Documents
- Documents automatically associate to the correct folder and are only seen by the parties you choose
- Increase visibility for your listings via the Public Documents including marketing fliers, photos, disclosure documents and other public information
- Archive your entire transaction file to any location and/or place on a CD-ROM for clients, agents, or office storage
- Improved Efficiency & Organization— NO ADDITIONAL COST

Go Green!

Doc Manager is an eco-friendly solution to office clutter and paper.

It takes one tree to make about 85,000 sheets of paper.

Imagine the trees (and office space) you can save by storing all of your documents online instead of in bulky file cabinets!

More information coming soon!

Be sure to sign-up for training classes December 15-17!
